

ULTRA PERFORMANCE VAPOR TIGHT LOW BAY (VTL)

Linmore LED Labs Ultra Performance Vapor Tight Low Bay (VTL) combines the innovation of Linmore URS Light Bars with a vapor tight enclosure. The patent pending URS Low Bay Light Bar System is comprised of the highest efficacy LEDs mechanically bonded to an extruded aluminum light bar with a high-tech diffuser creating a 240 degree beam angle. The amount of light and the consistent distribution of light per watt of energy consumed is unmatched by any other sealed low bay. When the objective is to utilize a low bay lighting system that repels the elements with the least amount of energy and maintenance, and get an industry leading 10 year warranty, the Linmore VTL is the clear choice.
