

What is LifeTime LED®

May 2026

The LED Lighting 2.0 Revolution Has Officially Begun ...

Sustainable ultra-performance lighting that lasts the life of your building and lowers the total cost of ownership.

The Need

LED lighting that delivers performance and sustainability AND

lowers cost up to 70%.

Introducing

Advanced and patented game-changing LED lighting technology – LifeTime LED – from Linmore, the industry's leading lighting innovator.

If it sounds too good to be true, then you're starting to understand.

LifeTime LED is Designed for the Life of Your Building ... and represents your last retrofit.

What's Really Happening...

95% of the real cost of your LED lighting over a 10-year period is energy, maintenance and replacement. And with energy and labor costs rising, your costs will only increase!

And labor is the worst of it – labor for installation... maintenance ... and repeat installations, including the skyrocketing cost of electricians.

The Secret Solution

The patented ReLuma[®] Module is an industry disrupting innovation – a plug-and-play replaceable light engine that renews LifeTime LED fixtures in under a minute... without the need of costly specialized labor.

The chassis stays and only the module is replaced, lowering maintenance costs and extending fixture life without the expense of full replacement.

- Lower Labor Costs
- Minimal Downtime
- Reduced Waste

The Secret Solution

A comprehensive and growing family of LifeTime LED products:

- Troffers & Door Kits
- High Bays
- Strip Lighting
- Exterior Area Lights

Linmore's LifeTime LED delivers commercial LED lighting solutions engineered to last the life of your building while minimizing environmental impact.

At end of life, a new patented ReLuma Module is installed in 1 minute and the core is returned to Linmore for remanufacturing and reuse ... reducing waste, keeping materials out of landfills, and ensuring responsible recycling.

With our durable, serviceable design and high-performance illumination, the LifeTime LED provides reliable light, long-term savings, and a sustainable future all in one system.

LifeTime LED Products

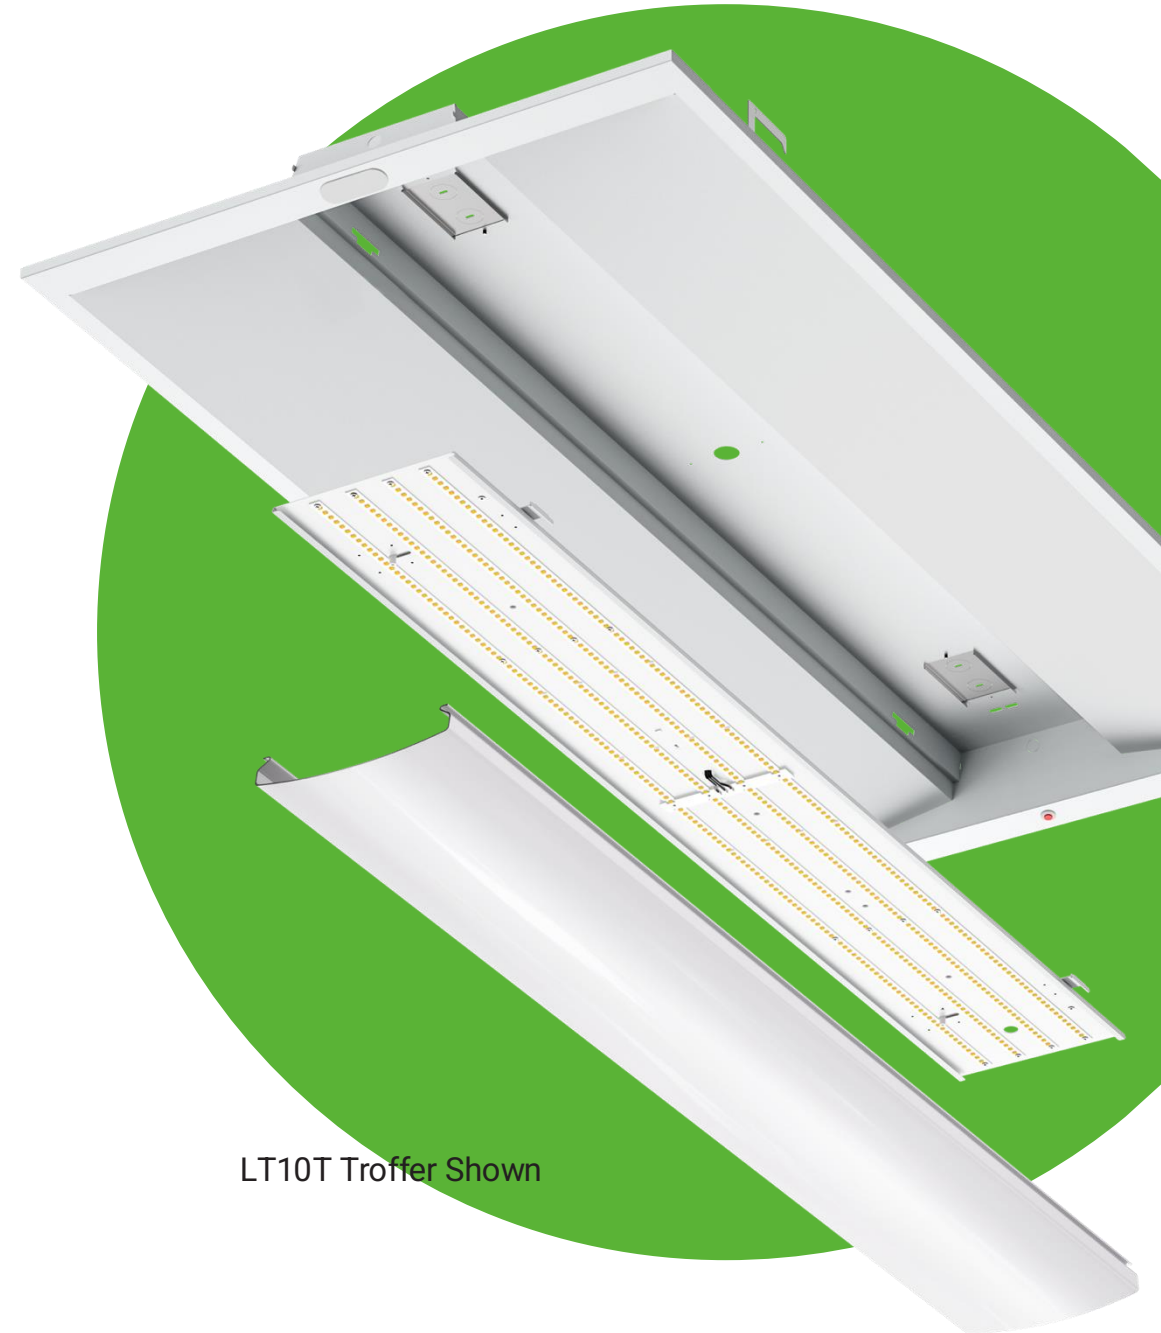

LifeTime LED Products

LifeTime LED Troffer (LT10T) and LifeTime LED Door Kit (LT10D)

Install Once. Renew Endlessly. Illuminate for Life.

Available in 1×4, 2×2, and 2×4 sizes to fit standard ceiling grids. The exclusive integrated ReLuma Module combines the LED engine and electronics into one unit, allowing the fixture to be easily renewed without removing or replacing the housing.

The first troffer engineered to last the life of your building.

LT10T Troffer Shown

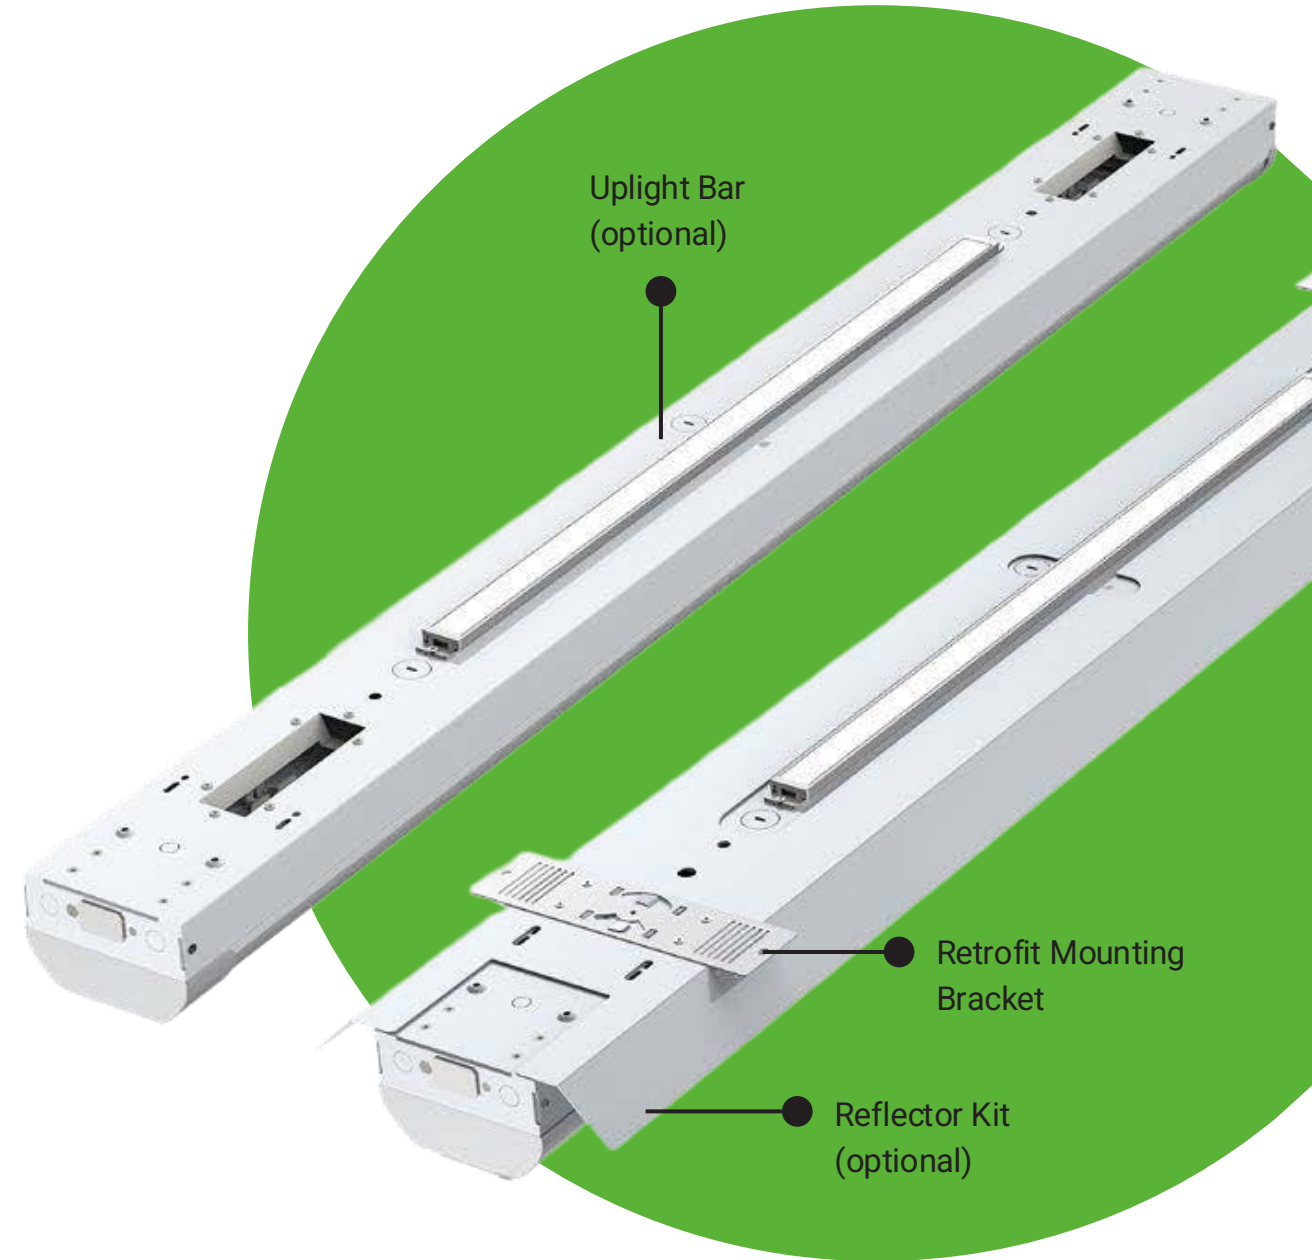

LifeTime LED Products

LifeTime LED Linear Strip Lighting (LT10S)

Endless, Easy, Affordable Renewal

Patented plug-and-play module that anyone can easily and quickly replace. Ultra-high performance, flicker-free lighting in standard 4-foot and 8-foot sizes.

Selectable CCT ... selectable wattage ... and adjustable lumens from 3,200 to 16,200.
