

Big League Dreams Sports Park

CASE STUDY

Location: **Multiple Locations**

Application: **Indoor Soccer Facility**

Essentials Series (ES3.2)

The Essentials Series delivers superior performance, quality and versatility in low bay and high bay applications. The ES4 is impact resistant and offers optional wire guards for additional protection. Designed for superior lumen output and heat dissipation.

RESULTS

Big League Dreams Sports Park replaced 1000W metal halides with Essentials Series Performance Line LED High Bays. The upgrade resulted in 74% energy reduction while also offering superior durability that can handle high impact.

REDUCED WATTAGE

OVERVIEW

Big League Dreams offers indoor soccer leagues in a 20,000 sq. ft. indoor pavilion for both youth and adults, as well as hosting softball tournaments and a multitude of special events.

They replaced their existing 1000W metal halide fixtures with 6 Essentials Performance LED high bays. It was important not only to save on annual energy and costs, but to have durable fixtures that can handle being hit by soccer balls.

RESULTS

The result was impressive with a reduction of wattage from 28,080 to 6,708, totaling 74% reduction while elevating light levels and decreasing glare and shadows. Big League Dreams immediately chose to use this fixture in other locations.
