

LinmoreLED[®]
ULTRA PERFORMANCE LIGHTING

BIG V PROPERTIES LLC

CASE STUDY: BIG V PROPERTIES

Lexington, South Carolina

The Linmore LED Labs Site Lighter is a superior combination of performance, value, and form factor. The body of the Site Lighter is unique in that it is extruded aluminum and exceptional at moving thermal energy while the rest of the market uses castings or weldments. Efficacy averages 165 lumens/watt across our models putting the Site Lighter in rare space and bringing ultra-low wattages to site lighting. A variety of optic packages direct the light where it is needed.
