

Carpets Direct

CASE STUDY

Location: **Lincoln, NE**

Application: **Retail Showroom**

Rapid Link® Bar (RLB)

The RLB is a system of Bars, Power Cords, and Mounting Clips made to be rapidly linked and deployed. The Rapid Link® Bar System opens new possibilities for retail, office, and warehouse applications because minimal cost and time is needed for installation; a typically large aspect of an LED upgrade.

RESULTS

Carpets Direct replaced 22 65W 8' fluorescent tubes with the same number of 22W 4' RLB systems. Light levels increased from 18 to 60 footcandles, improving visibility and safety to guests and employees while reducing the operating costs of the retailer.
