

# Dan's Auto Center

## CASE STUDY

Location: **Oakhurst, CA**

Application: **Auto Service Facility**

## Universal Retrofit System (URS)

The URS is the ultimate retrofit system for a variety of linear fluorescent light fixtures. Each URS is comprised of a patented aluminum extrusion, a high-efficacy set of LEDs, and an external dimmable driver. The URS is offered in two nominal lengths, 2' & 4', to retrofit the most popular installed housing.

## RESULTS

Dan's Auto Center replaced fluorescent tube high bays with URS bars. Light levels increased from 26 to 106 footcandles, improving visibility and safety of employees while reducing the operating costs of the auto service facility.
