

Emerald Empire Dance

CASE STUDY

Location: **Springfield, OR**

Application: **Dance Studio**

Eliminator High Bay (EHB)

The EHB is a powerful package of aluminum light bars, high efficacy LEDs, and optics options. With efficacy over 170 lumens per watt, maximum energy savings will be achieved. For warehouse aisles, a specific optic option has been developed for maximum punch.

“ This is a high traffic local dance hall. We chose Linmore Labs LED Eliminator High Bays for their streamlined look and the 3500K color temp availability. The dance hall needed warm lighting for the dance atmosphere and most high bays we considered do not come in 3500K.”

Rebecca Glock at Beacon Electric and Lighting
