

Farm & Home Supply

CASE STUDY

Location: **Alton, IL**

Application: **Retail Store**

Universal Retrofit System (URS)

The URS is the ultimate retrofit system for a variety of linear fluorescent light fixtures. Each URS is comprised of a patented aluminum extrusion, a high-efficacy set of LEDs, and an external dimmable driver. The URS is offered in two nominal lengths, 2' & 4', to retrofit the most popular installed housing.

RESULTS

Farm & Home Supply replaced 145W fluorescent tubes with 44W URS bars. Light levels increased from 42 to 53 footcandles, improving visibility and safety to guests and employees while reducing the operating costs of the retailer.
