

Globe Building

CASE STUDY

Location: **St. Louis, MO**

Application: **Parking Garage**

Rapid Link® Bar (RLB)

The RLB is a system of Bars, Power Cords, and Mounting Clips made to be rapidly linked and deployed. The Rapid Link® Bar System opens new possibilities for retail, office, and warehouse applications because minimal cost and time is needed for installation, a typically large aspect of an LED upgrade.

RESULTS

Globe Building replaced 8' fluorescent tubes with 4' Rapid Link® Bars. Light levels increased from 16 to 29 footcandles, improving visibility and safety to guests while reducing the operating costs.
