

Greer's Market

CASE STUDY

Location: **Mobile, AL**

Application: **Grocery Store**

Universal Retrofit System (URS)

The URS is the ultimate retrofit system for a variety of linear fluorescent light fixtures. Each URS is comprised of a patented aluminum extrusion, a high-efficacy set of LEDs, and an external dimmable driver. The URS is offered in two nominal lengths, 2' & 4', to retrofit the most popular installed housing.

RESULTS

Greer's Market replaced 173W fluorescent tubes with the same amount of 72W URS bars. Light levels increased from 21 to 55 footcandles, improving visibility and safety to guests and employees while reducing the operating costs of the grocery store.
