

# HPI Commercial Real Estate

## CASE STUDY

Location: **Dallas, TX**

Application: **Storage Space**

### Rapid Link® Bar (RLB)

The RLB is a system of Bars, Power Cords, and Mounting Clips made to be rapidly linked and deployed. The Rapid Link® Bar System opens new possibilities for retail, office, and warehouse applications because minimal cost and time is needed for installation; a typically large aspect of an LED upgrade.

## RESULTS

HPI Commercial Real Estate replaced 8' fluorescent tubes with 4' RLB fixtures. Light levels increased from 3 to 16 footcandles, improving visibility and safety of employees while reducing the operating costs of the storage space.
