

Inn at Pelican Bay

CASE STUDY

Location: **Naples, FL**

Application: **Hotel Parking Lot**

Site Lighter Area Light (SL1)

The SL1 is a built-to-last LED fixture offering a superior combination of performance, value, and form factor. The unique housing is made of extruded aluminum, which is exceptional at moving thermal energy. Beyond its thermal efficiency, the aesthetics are modern and attractive. Efficacy averages 165 lumens/watt, and has a variety of optic options to direct the light where it is needed.

RESULTS

The Inn at Pelican Bay replaced 458W metal halide fixtures with the same amount of 300W Site Lighters (SL1). Light levels increased from 0.2 to 2 footcandles, improving visibility and safety to guests and employees while reducing the operating costs of the hotel.
