

Legacy Preparatory Charter Academy

CASE STUDY

Location: **Mesquite, TX**

Application: **Charter School Gymnasium**

Eliminator High Bay (EHB)

The EHB is a powerful package of aluminum light bars, high efficacy LEDs, and optics options. With efficacy over 170 lumens per watt, maximum energy savings will be achieved. For warehouse aisles, a specific optic option has been developed for maximum punch.

RESULTS

Legacy Preparatory Charter Academy replaced fluorescent tube high bays with Eliminator High Bays. Light levels increased from 22 to 33 footcandles, improving visibility and safety while reducing the operating costs of the charter school.
