

Lorenzo's Market

CASE STUDY

Location: **Winters, California**

Application: **Grocery Store**

Partner: **True North LED**

SL1

SCK

AL-T8

RLB

Lorenzo's Market replaced outdated T8 fixtures with Rapid Link™ Bars (RLB), Ace Strip Conversion Kit (SCK) fixtures, and Ace LED Type A & B Nano Tubes (AL-T8), creating a modern look with improved life and performance. They also replaced metal halide fixtures with Site Lighter Area Light (SL1) fixtures in the parking lot for a superior combination of performance, value, and form factor.

RESULTS

The increased lighting levels from the LED upgrade improved the aesthetics of the store, the customer experience, and productivity of employees. In addition to the energy savings, the extra-long life of the installed LED fixtures allows for minimal labor and maintenance costs.
