

Los Angeles Unified School District

CASE STUDY

Location: **Los Angeles, CA**

Application: **School Classrooms**

Universal Retrofit System (URS)

The URS is the ultimate retrofit system for a variety of linear fluorescent light fixtures. Each URS is comprised of a patented aluminum extrusion, a high-efficacy set of LEDs, and an external dimmable driver. The URS is offered in two nominal lengths, 2' & 4', to retrofit the most popular installed housing.

RESULTS

Los Angeles Unified School District replaced 72W fluorescent tubes with 26W URS bars. Light levels increased from 47 to 66 footcandles, improving visibility and safety to students and staff while reducing the operating costs of the school district.
