

Maya Cinemas

CASE STUDY

Location: **Bakersfield, CA**

Application: **Movie Theater**

Recessed Can Retrofit (REC)

The REC is an extremely versatile high-powered monopoint LED retrofit for commercial recessed or can lighting: malls, airports, convention arenas, stage, auditorium, and much more. 20, 45, & 90W units mount to 0.80 aluminum adapter plates that have been custom cut to fit your fixture.

RESULTS

Maya Cinemas replaced incandescent canned lighting with 45W Recessed Can Retrofit (REC). The energy savings and displaced CO₂ resulted in a reduced carbon footprint for the movie theater. Plus, they enjoyed a 4.4-year return on investment.
