

McCoy- Rockford

CASE STUDY

Location: **Austin, TX**

Application: **Office Space**

Troffer Retrofit Kit (TRK)

The TRK is a high value kit to modernize an existing troffer. The TRK quickly assembles inside of an existing troffer without tools in just minutes. Take a traditional troffer and transform it to the new look of modern troffer lighting with a center lens that is evenly illuminated.

RESULTS

McCoy-Rockford replaced 124 3LT8 troffers with the same amount of 28W Troffer Retrofit Kits (TRK). The energy savings coupled with the displaced CO₂ resulted in reduced carbon footprint for the McCoy-Rockford office spaces.
