CASE STUDY

Location: **St. Louis, MO**

Application: **Supply Chain Facility**

Ultra Performance High Bay (UPH)

The UPH is the ultimate high bay fixture. When designing the Ultra Performance High Bay (UPH), we considered all aspects of owning and maintaining a high bay lighting system from energy consumption to ease of ownership..

RESULTS

World Wide Technologies replaced fluorescent tube high bays with UPH fixtures with attached Enocean motion sensors. Light levels increased from 18 to 24 footcandles, improving visibility and safety of employees while reducing the operating costs of the supply chain facility.
