

HIGH PERFORMANCE HIGH BAY HPH

PRODUCT BRIEF

High Performance High Bay (HPH) is a formidable combination of performance and value. A key differentiator in LED high bays is highly effective optics.

While most high bays have bare LEDs and no optics, the HPH uses Linmore's patented ParaBar™ High Bay Light Bar System with high efficacy LEDs on an aluminum strip mechanically bonded to the aluminum extruded Light Bar with parabolic, highly reflective sides. When the objective is to maximize value in your purchasing dollar with high light levels per Watt and Dollar of Capital, the Linmore HPH is the clear choice.

EFFICACY

>134 Lumens per Watt

Only High Quality LEDs used to ensure maximum light output and longevity

Lowest Watts per Foot Candles Available

CONSTRUCTION

ParaBar™: Extruded Aluminum

LED Driver Enclosure: Aluminum

No Glass

No Mercury

No UV Light

ELECTRICAL

0-10V Multi-Channel Dimming Driver

Optional Integral Surge Suppression, 20KA

OPTICS

ParaBars™ Light Bars (patented)

Optically Engineered Parabolic Shape

98% Reflective Siding

Clear, Polycarbonate End Caps

APPLICATIONS

Dry or Damp Locations

HIGH PERFORMANCE HIGH BAY

HPH

WATTS

72-264

EXPECTED LIFE (Hours)

>102,000

SPECIFICATIONS

Warranty 14 Years on ParaBar, 10 Years on Driver

Driver Linmore LED Driver 0-10V Dimming

Expected Life >102,000 L90

System Wattage 72W, 88W, 110W, 132W, 176W, 264W

Efficacy (5000K) Up to 134 Lumens/Watt

Color Temperature 5000K

Color Rendering >82

Extrusion Material 6063 T5 Aluminum

Operating Temperature -40F to +135F

Power Factor 0.99

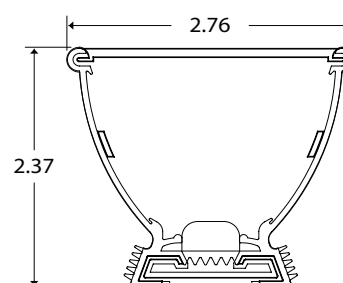

Voltage..... 100-277 Volts AC, 347/480V Available

Weight..... 18-24 lbs

Certifications DLC Premium, UL1598,FCC CFR 47,
Part 15, ROHS, CUL (Canada)
*U.S. Patent No. 9,752,735
